

Tuesday, 12th December 2017

We woke up early to meet the other students from every country in the hall of the German school. The principal introduced the school after the choir was singing Christmas songs. Every school shows a video about the school and introduced their city. The German students organized a tour of the John-Brinckman-Gymnasium. The Bilse-institution gave a presentation about their national and also international projects. Then we, the members of the project Erasmus+, worked in national groups to discuss the job situations in each country and later on we sat in international groups to compare the surprising results from each country. Some German students tried to teach some German words and tongue-twister which was a lot of fun. At the same time the Irish people arrived in Güstrow and went to their hotel. The other ones visited our town and took a lot of photos. In the evening there was time to relax with the families and some students went bowling.
