Because the people in the other countryes know Catalonia
because we had the chance to share our ideas and learning from each other.
Because now more people know about the school and if the school would like to do a project with our school they would know what kind of school it is
as my fellow students have now been educated more about the EU and through the project we were also exposed to international students that helped with the internationalisation between students of our school
As speaking in public and working in groups
because we needed to talk to each other in a (for most of us foreign language)
.
.
It's a good opportunity
It is a good opportunity
A lot
I found it useful
I worked with students from other counties
I learned new words in different language outsider henglish and italian.
because I think that this projects are so important
Because my school could work with different school of Europe
A lot
So much
.
It's actually very useful
We have improved our english and tried to do more things related to the other places of the EU.
Because in not a lot of school do this type of projects
Yes, a lot.
I think so

My school now hosts EU days

We worked with very instresting partners

There wasn't involved the whole school. Just some students. But yes, them/we now feel better connected to the EU.

Bc some ppl participate to this project for skipping daily classes

I do not want more internationalisation.
